RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Restriction Requirement dated March 14, 2003, Applicants elect the invention of Group I, claims 43-62, 65-78 and 94, with traverse. The inventions of Groups I and II are sufficiently related so that a search of both groups would not represent an undue burden on the Office.

Applicants further elect Species I, Figures. 2A and 2B (no mating or index pin), with traverse. The species are sufficiently related so that a search of both species would not represent an undue burden on the Office. Claims specifically readable on Species I are 43-62, 65-67, 70-73, 77, 78, 94, and 95. Claims 43-62, 65-67, 70-73, 77, 78, 94, and 95 are generic. It is our understanding that if no rejection can be made of the elected species, the generic claims and all claims dependent thereon will be examined.
